**INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF NC ENERGY LIMITED**

**Meaning of Internal Financial Controls over Financial Reporting**

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that

1. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
2. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

The Financial Statements of the Company have been prepared in accordance with the accounting principles generally accepted in India. The Company has prepared these Financial Statements to comply in all material respects with the Accounting Standards issued by the Institute of Chartered Accountants of India and relevant provisions of the Companies Act, 2013. The Financial Statements have been prepared on an accrual basis and under the historical cost convention.

The Accounting Policies adopted in the Financial Statements are consistent with those of previous year.

### **USE OF ESTIMATES**

The Preparation of financial statements in conformity with generally accepted accounting principles in India requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although, these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring material adjustments to the carrying amounts of assets or liabilities in future periods.

Fixed Assets are recorded at cost less accumulated depreciation. The company capitalizes all costs relating to acquisition and installation of fixed assets. Advances paid towards the acquisition of fixed assets outstanding at each balance sheet date are disclosed as "Capital Advances" under Long Term Loans and Advances.

Depreciation has not been provided, since, the company has not started its commercial operations during the year.

### **BORROWING COSTS**

Borrowing costs directly attributable to the acquisition, construction on or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. Other borrowings costs are expensed in the year in which it is occurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

### **CAPITAL WORK IN PROGRESS**

Expenditure incurred on the existing power project under development is treated as pre-operative expenses pending allocation to the assets, and are included under "Capital Work in Progress". These expenses are apportioned to fixed assets on commencement of commercial production. Capital Work in Progress is stated at the amount expended up to the date of balance sheet.
